INDIANA DEMOCRATS.

State Convention at Indianapolis Yesterday.

THE PLATFORM ADOPTED.

Horrible Collision—Maine Republicans—The Sick Emperor—Miscellaneous News Notes.

Indiana Democrats.

INDIANAPOLIS, April 26.—The Indiana State Democratic convention, which assembled this morning, was largely attended, more than the usual interest being manifested in the outcome of the day's work, by reason of the bitter feeling that has been engendered between friends of Governor Gray and of ex-Senator McDonald, and which culminated on Wednesday in an address from the latter to his friends throughout the State, in which the ex-Senator says some very uncomplimentary things about the Governor. Another incident that added to the interest was the fact that John Sullivan, one of the men indicted for participating in the tally sheet forgery, was a persistent candidate for delegate to the St. Louis convention from the Seventh district. The day's work was simplified by the action of various district meetings, last night, which elected district delegates to the National Convention, Presidential electors, members of committees, and assistant secretaries and vice-presidents. The convention was called to order at 10 o'clock. The committee on permanent organization then reported, recommending Charles L. Jewett for chairman, Daniel W. Voorhees, David Turpin, John G. Shawkin and John H. Bass for delegates-at-large to the National Convention. District delegates are the same as given out last night, and after which various committees were announced, and the report unanimously adopted. Chairman Jewett then addressed the convention. In the course of his remarks he paid a glowing tribute to the administration of President Cleveland and when he suggested that the next ticket might be Cleveland and Gray, he was greeted with wild cheers and continued applause. The same was the case when the name of Hendricks was mentioned. Courtland C. Matson was nominated for governor.

The nomination of Matson was made unanimous, and William R. Myers was nominated for lieutenant-governor. William H. Bagley, chairman of the committee on resolutions, submitted a platform to the convention. It renews the pledges of fidelity to the Constitution and doctrines taught by the founders of the party and announces a determination to resist all efforts to deprive the Federal government of any of its powers delegated in the Constitution. The whole country is congratulated upon the successful administration of Cleveland; that he has earnestly labored to discharge the duties of his great office in the interest of all the people there can be no question; that he has succeeded so well, is a source of pride and gratification to those who elected him, as it should be to all his countrymen. Not even party malice dare to assail his honesty or integrity, and all his acts have not only been clear, but above suspicion. The country is at peace with all the world, the laws are faithfully administered, good order and economy prevail wherever the executive has control, and the whole country is enjoying remarkable prosperity under his wise and beneficent administration. Therefore, the Democracy of Indiana feel that it would be unwise to risk the hazard of a change, and declare themselves emphatically in favor of his re-election. The tariff plank opposes the hoarding of money in the Treasury beyond the needs of the proper administration of government; insists that taxes on imports be reduced to the lowest point consistent with efficiency in the public service, and demands a revision of the tariff as recommended in the President's message.

The platform furthermore declares that the preference in making appointments to office should be given to those who would harmonize, in principle and policy, with the party having the responsibility of the administration; that legislation should be enacted to protect the interest of labor and promote harmony between labor and capital; that it is the duty of the government to repossess itself of all forfeited land grants, and that laws should be enacted to prevent the ownership of large tracts of land by corporations or aliens; that the sale of intoxicants should be regulated by the license system; condemns the action of the Republican party in the last General Assembly as revolutionary; declares that the Democratic party favors fair and honest elections; favors liberal legislation in behalf of soldiers, and concludes with an endorsement of the administration of Governor Gray, and instructs the delegates to the National Convention to cast their votes as a unit for him as long as his name is before the Convention as a candidate for the Vice-Presidency. The platform was unanimously adopted.

Robert Myers was nominated for secretary of State; for auditor of the State, Charles A. Munson; for treasurer of the State, Thomas B. Byrnes.

President Carnot.

PARIS, April 26.—President Carnot arrived to-day, at Agen, where he laid the foundation stone of a new lyceum. The President met with an enthusiastic reception. The day's ceremony was marred by a serious accident. The platform which had been erected for the accommodation of guests collapsed, and twenty persons were injured. There were several hundred persons on the platform at the time of the accident.

Baseball.

WASHINGTON, April 26.—The Bostonians defeated the Washingtons again to-day, chiefly on account of the pitching of Gilmore, who had no command over the ball whatever. He made two wild pitches that allowed three men to cross the plate. He hit Sutton while at the bat and sent four men to bases on balls. Besides this he kept Murray constantly dancing behind the plate and muffed a ball which, had he caught, would have deprived the visitors of two runs. Madden, on the other hand, pitched a good, steady game and was well supported. Washington 2, Boston 9.

PHILADELPHIA, April 26.—Philadelphia 9, Cleveland 11.

BALTIMORE, April 26.—Baltimore 5, Brooklyn 3.

NEW YORK, April 26.—The New Yorks redeemed themselves to-day. They downed the Philadelphias in fine style, and refuted the taunts that they needed batters in the club. They scored three home runs. Crane was put in the box for the New Yorkers and did fairly good work. He was poorly supported by Ewing. Gleason pitched for Philadelphia, and at times was hit hard. Shriver supported him well. Few brilliant plays were made. Little enthusiasm was manifested except over the home runs. Score—New York 11, Philadelphia 5.

INDIANAPOLIS, April 26.—The crippled Indianapolis team, to-day, won its first game of the season, the champion Detroit being the victims. The feature of the game, aside from the hard and timely hitting by Denny, Buckley and Snodgrass, was the splendid style in which Shriver fielded his position. Several of his assists and one put-out being on hard line drives and grounders.

KANSAS CITY, April 26.—Kansas City 3, Louisville 7.

ST. LOUIS, April 26.—St. Louis 3, Cincinnati 4.

PITTSBURGH, April 26.—The Pittsburghs were defeated to-day, by the superior work of the Chicago, who outplayed them at every point. The game was won in the fourth inning by heavy batting. Farrell, Anson and Burns knocking out singles, Darling a two-bagger and Sullivan a home run. The feature of the game was Farrell's catching in right field. The weather was bright and warm. Attendance, 4,000.

Maine Republicans.

BANGOR, Maine, April 26.—The Republican State Convention was called to order, 783 delegates being in attendance. Horace H. Burbank was elected chairman. The candidates, with a single exception, were elected by acclamation. Charles H. Prescott, Joseph H. Manley, S. H. Allen and Charles A. Boutelle were elected delegates-at-large. The alternates and electors having been elected, the committee on resolutions reported the platform, which was adopted, and the convention adjourned. The platform declares for the protection of American industry, and that it is the duty of Republicans in Congress to resist to the utmost the passage of Mills' tariff bill; favors the abolition of so much of the revenue tariff taxes as will bring the total receipts of the Treasury to equal, as nearly as practicable, the just expenditures of the government; that Hon. James G. Blaine, our long-trusted statesman, is deserving of the thanks of the people of Maine and of the entire nation for the promptness and remarkable ability and facility with which, in his Paris letter, he answered the free-trade manifesto of President Cleveland and pointed out the duty of maintaining American industries and markets for the American people. The physicians, to-night, say the Emperor is better in every respect and that the crisis is past.

The Sick Emperor.

BERLIN, April 26.—A bulletin issued this morning says: The Emperor slept well last night. His fever is very slight and his general condition begins to improve. The Emperor rose at noon and walked in the room adjoining his bedroom. The doctors are in hope that he will be able to drive out by Monday. Queen Victoria visited the Mausoleum this morning and spent some time in prayer at the tomb of Emperor William. The Empress and her daughters accompanied the Queen.

BREMAN, April 26.—During the day the Emperor has been out of bed four hours. His temperature is now almost normal. His sense of taste, which he lost during the critical period, has returned. This is regarded as an exceptionally favorable sign. He seems better in every respect. His appetite is remarkable. He has again begun to hear state reports. The physicians are of the opinion that the crisis has passed.

Horrible Collision.

ASTIGO, Wis., April 26.—It is reported that a freight train ran into a work train between Bernamwood and Eland Junction, on the Milwaukee, Lake Shore & Western road, at 9 o'clock this morning, and that ten persons were either killed or severely injured. No particulars.

CONFIRMED AND DENIED.

MILWAUKEE, April 26.—The officers of the Milwaukee, Lake Shore & Western road confirm the report of the collision. They say that the accident occurred, but that nobody was killed. The injured are all railroad laborers.

Anti-Saloon Letters.

NEW YORK, April 26.—Albert Griffin, chairman of the Anti-Saloon Republican National Committee, reports numerous letters received from Senators, Congressmen, Governors and other leaders, including several whose names are being considered in connection with the Presidency, strongly endorsing the movement to commit the party openly against saloons.

Fell Dead.

LOUISVILLE, April 26.—L. L. Dorsey, Jr., the well-known trotting horse breeder and turf writer, fell dead at his farm, near this city, to-day, aged 69.

SENATE.

WASHINGTON, April 26.—Ingalls gave notice that, on Tuesday next, he would reply to the attacks made upon him yesterday, in his absence, by Senator Voorhees, and would call attention to some singular omissions by that Senator in his defense of the present administration, in its attitude toward Union veterans, and in regard to the pension legislation.

The conference report on the House joint resolution accepting the invitation of the French republic to take part in the international exposition at Paris in 1889, was agreed to. It fixes the appropriation at \$250,000.

The Senate then resumed consideration of the railroad land forfeiture bill, and Palmer proceeded to argue against all the amendments as to the lands granted to the State of Michigan for railroad purposes.

After a speech on the general land policy of the government by Dolph, the bill was laid aside without action. The Senate passed a number of public building bills, among which was the bill appropriating \$50,000 for a public building at Boulder, Colorado. Adjourned till Monday.

HOUSE.

The Senate bill passed for the relief of the Omaha tribe of Indians in Nebraska, and to extend the time for the payment to the purchasers of lands of said Indians.

The House then went into committee of the whole on the tariff bill.

Buchanan, of New Jersey, opposed the bill, which, he said, struck a blow at almost every industry in his district. He denounced in general, and in detail, the provisions of the bill.

Hempill, of South Carolina, said he could not conceive a system more unjust, unreasonable, unfair and unrighteous than the protective system. He earnestly appealed to every gentleman who had the faintest conception of justice to lend his aid to the pending bill.

The committee arose and the House took a recess until 5 p. m. this evening, the session to be for debate on the tariff bill.

Sayres, of Texas, addressed the House at its evening session, in general commendation of the Mills tariff bill. The bill, he said, was a step in the right direction, and, if passed, would be so much gained in the effort to relieve the people from as oppressive and unequal a burden as had ever been imposed by a representative government in modern times.

The House at 9:10 adjourned.

Thursday's Washington Gossip.

INFORMATION WANTED.

WASHINGTON, April 26.—The committee on ways and means agreed to Breckenridge's resolution calling on the Secretary of the Treasury for the following information:

First—What number of persons in each of the principal occupations were engaged in the branches of which product of like kind could be imported from a foreign country, in any measure or quantity, sufficient to call for the attention of the legislators?

Second—What number in each category might be considered wholly free from foreign competition?

Third—What number of persons might be considered, in some small measure, subject to foreign competition?

Fourth—The number of persons he represented by the report of acts of agricultural, manufacturing and mining, to be estimated upon the relation of the value of the quantities of such exports to the value or quantity of the total product; in other words, the number occupied in production for export.

EXCEPTIONS TAKEN.

The Republican members of the ways and means committee met, to-day, in the room of the committee on banking and currency, for the purpose of hearing about a dozen persons representing manufacturing interests and labor organizations. The statements of these persons, in brief, were to the effect that they desired to take exception to the remarks on the floor of the House by the friends of the Mills bill, that the laborers and manufacturers derive no benefit from the present tariff law. They also made an energetic protest against the action of the ways and means committee in refusing to hear from the representatives of the interests which would be affected by the passage of the pending bill.

In reaching a decision in

THE CALIFORNIA CONTENTED ELECTION CASE of Lynch vs. Vandever, the House elections committee held, and it is probable this question will be strongly set out in the report, that the election officers acted improperly in rejecting the votes of such persons as attempted to register by affidavit, after the expiration of the time for registration fixed in the published notice. It was held that the register officers acted outside of authority in limiting the time for registration to a shorter time than that fixed by the State law, and the affidavits of those persons who failed to register in the appointed time, although presented and collected by persons not legally qualified, should have been received and the persons allowed to cast their votes. The votes rejected by the election officers were counted by the House committee, with the result that they reduced Vandever's majority to about thirty votes, but as this was not sufficient to reverse the result, the committee declared in favor of the claims of Vandever.

Terrific Explosion.

CHICAGO, April 26.—An explosion that pitched seventy people into the air, throwing one man fifty feet, wrecked seventeen large plate-glass windows, ruined \$35,000 worth of clothing, damaged a building \$150,000, and caused the stampede of hundreds of people from the upper stories of tall buildings, occurred in a basement at State and Jackson Streets this evening. Queer enough, no one was killed, although two or three may be fatally injured. Two workmen were drilling a hole across the street from the basement to make a conduit for electric wires, and accidentally punctured the gas main. They ita cannot see what was the matter with the drill and the next instant they, seventy odd clerks and customers, the clothing store overhead, the massive plate-glass front and great piles of ready-made clothing, were mixed up almost in an extricable mass, with broken timbers and falling plaster, while people for blocks around thought an earthquake had occurred and rushed to the scene. The fire was quickly extinguished by the department. Two workmen in the basement were found to be very badly injured and three or four clerks in the store above, injured internally. One of them, George Dunlap, when the explosion occurred, was standing on a fire-register, and was thrown fifty feet, landing on a pile of goods. His back was badly injured.

Attempted Suicide.

DENVER, April 26.—Ben S. Robbins, assistant United States District Attorney for Colorado, and formerly State Senator of Kentucky, and a prominent politician of that State, attempted suicide in his room this morning, by cutting his throat with a pen knife. Robbins had been drinking heavily of late and at the time of the attempt on his life he was suffering a slight touch of delirium tremens. It is reported that domestic trouble, together with the refusal of his wife to come to Denver to live drove him to drink and to attempt his life. The physicians are of the opinion that he will recover. His family, in Le Grange, Kentucky, have been notified.

New Arrangements.

NEW YORK, April 26.—It is reported here that the Fort Worth & Denver Railroad is about to make four steamers per week available between New York and Gulf points, also that an arrangement has just been made by which the Texas Central gets the right of way over the Texas & Pacific road to the connection with the Fort Worth & Denver road.

Frost in Virginia.

NOFOLK, Va., April 26.—A heavy frost in this section, last night, damaged early fruits and vegetables from \$500,000 to \$750,000.

The Behring Sea Fisheries.

OTTAWA, April 26.—In the House of Commons, to-night, the correspondence with reference to the Behring Straits seal seizures was brought down. Most of it deals with the protests of the British government, the statements being by Bayard that for the time being no other seizures would be ordered and the advice of the crown that the owners of the seized vessels have a case for damage. The only new and important matter is contained in the dispatches of Lord Salisbury to Her Majesty's plenipotentiaries at the Fisheries conference, under date of December 2, 1881. He said he received, on the 20th, a telegram from Mr. Chamblain, inquiring whether the proposal for an international conference in regard to the Behring Sea fisheries had been accepted by Her Majesty's government. "You are aware, from the correspondence in your possession, that the communications with reference to the proposal would appear to have been addressed to some of the maritime powers of the United States for an international convention, for the protection of vessels in the Behring Sea, and were received last October, from the German and Swedish charge d'affaires in London. No definite invitation for an international understanding on this question has yet been received from the United States government by Her Majesty's plenipotentiaries. In answer to a question from Phillips, I have expressed myself as being invariably disposed to negotiate for an agreement as to the close of the season in all the seal fisheries, to whosever belonging, but I carefully separated the question from all controversies as to fishery rights." This terminates the correspondence, of which this evidently is a selection.
